

Torex™ DRS-POS business edition provides a modern entry point into an electronic point-of-service (POS) application that will meet your needs as your business grows.

The challenge

Does your business have only one, or just a few stores that record their sales transactions with a basic cash register? While a register may give you a daily sales read, it doesn't capture additional information that you could use to run your business better.

Define customer experience with Torex DRS business edition

Torex DRS-POS business edition is an excellent alternative for small businesses looking to expand their POS functionality, including automation of processes and reporting.

As your business grows, you may choose to upgrade to Torex DRS-POS enterprise edition, a fully integrated retail management solution delivering additional functionality such as:

- Merchandising and planning
- Sales and profit analysis
- Stock control
- Retail accounting
- Financial reporting

- Promotions
- E-gift cards
- Ticket printing
- Alerts

In other words, Torex has everything you need to run your entire retail business – no matter how large it becomes. And our solutions reflect 20+ years of experience serving some of the biggest retailing names in the world.

The solution

A useful data repository

Torex DRS-POS business edition gives salespeople and cashiers the information they need – including customer profiles and product information – to make fast and accurate sales in a number of different environments.

Out of the box

Torex DRS-POS business edition features complete retail functionality, taking advantage of the extensive retail knowledge Torex has gained from many years of implementing the Torex system.

Modern user interface

Each screen in the system is built on the same structure, layout and design principles, and features modern touch-screen technology. In addition, all configuration is controlled via the POS screen, including:

- Items
- Users
- Discounts
- User interface
- Tills
- Tenders
- Departments
- Tables

Our emphasis on simplicity reduces training costs, as all your employees can get up and running in little or no time. There is also a training mode function to assist new staff without affecting totals available.

Tailored installations

Each Torex DRS-POS business edition installation is tailored to the store location, including receipt headers, footers, customer display messages and keyboard layouts – offering your business a unique solution.

International capabilities

Torex DRS-POS business edition is available for use in multiple languages and can handle multiple currencies as well as multiple tax environments.

Web support

Torex DRS-POS business edition provides added value to your organisation by letting you log calls directly on the Internet, view support status and understand how the product is benefiting other customers.

Multi-environment capabilities

Torex DRS-POS business edition supports mixed environments across the retail realm, so you can manage a varied mix of stores without investing in multiple systems.

Achieve results now

Torex DRS-POS business edition allows your small business to operate efficiently today, and, when the time comes, to upgrade to the total retail management system of Torex DRS-POS enterprise edition.
